INTENTION

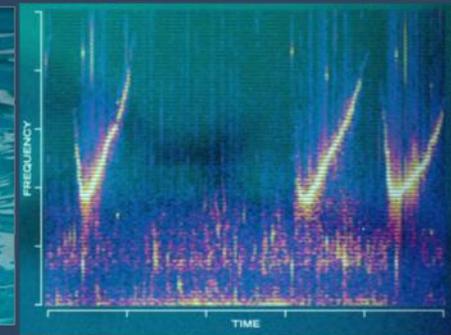

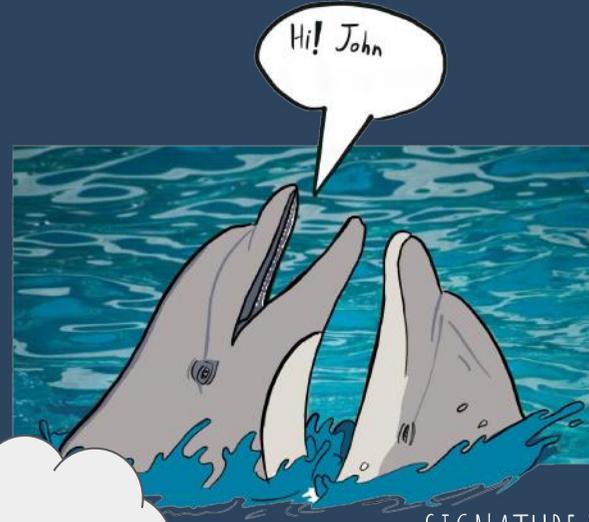

Main object of this project is to communicate, interact, and understand their language use from dolphin., as they are intelligent and friendly to human.

Blowhole

- A dolphin uses echolocation by creating clicking sound wave sknown as ultrasound. It is nasal passageway that travel through the top of its blowhole, or melon.
- Different in frequency will make different sound.

ANALYSIS + DESIGN

Barbell Horns
- able to amplify ultrasonic amplitudes while retaining large output tip diameters
- convert ultrasound to water wave that people can understand.

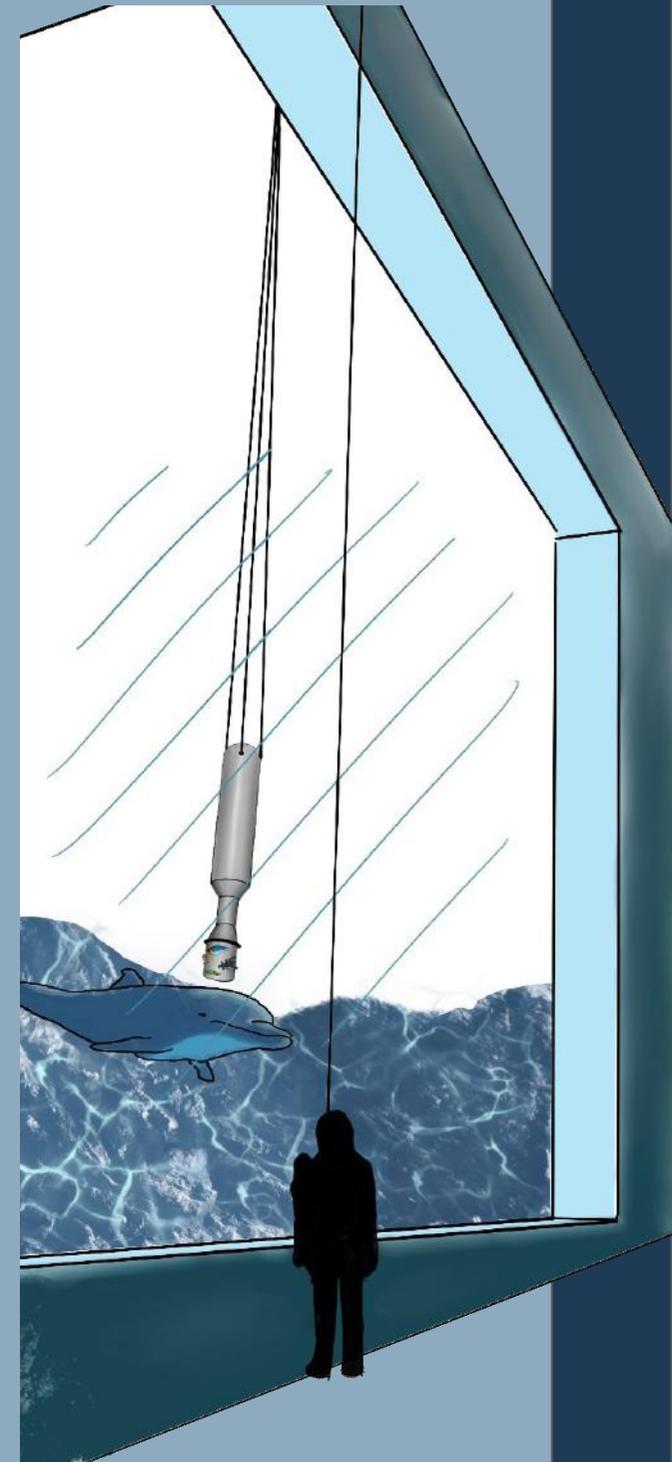

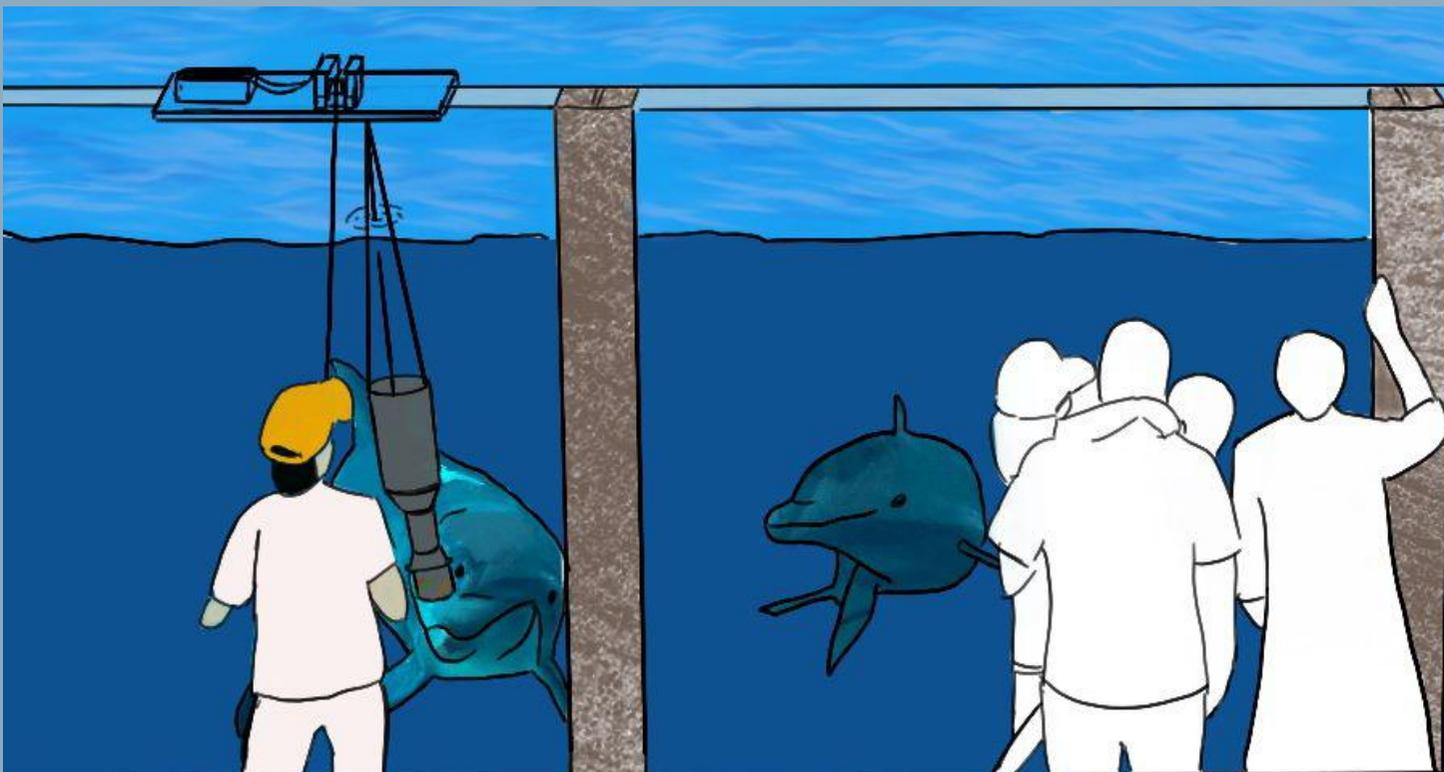

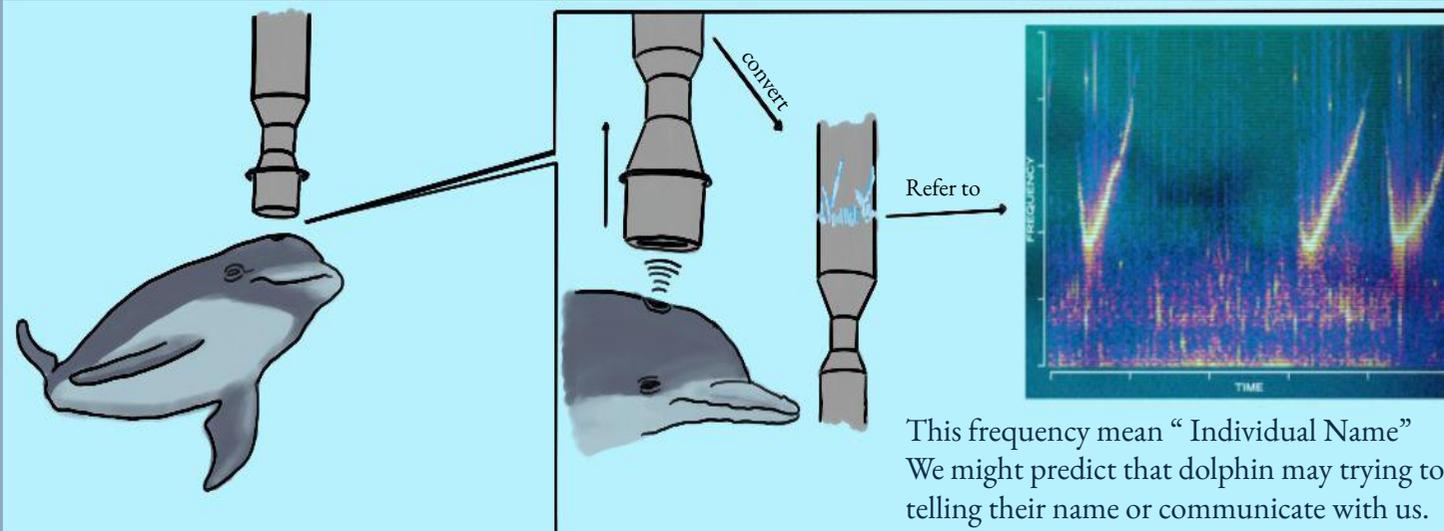

Fishing pole
-This tool make people play with dolphins, and dolphins will also interact and give their feedback.

Attach shiny fishing bait due to dolphin eyes sensory and bring them closer.

EXECUTION

GENSHIN IMPACT

Genshin Impact is an action role-playing game developed and published by MiHoYo. The story follows the Traveler, who has traveled across countless worlds with their twin sibling before becoming separated in Teyvat.

Due to the need to find the sister or brother who was taken away, so will have to explore mostly during the trip. We will find many places, characters, monsters, and lores.

As the publisher say that this game will continue for about 10 years. The most interest for me in this game is area of the environment , the beauty, and uniqueness of each country.

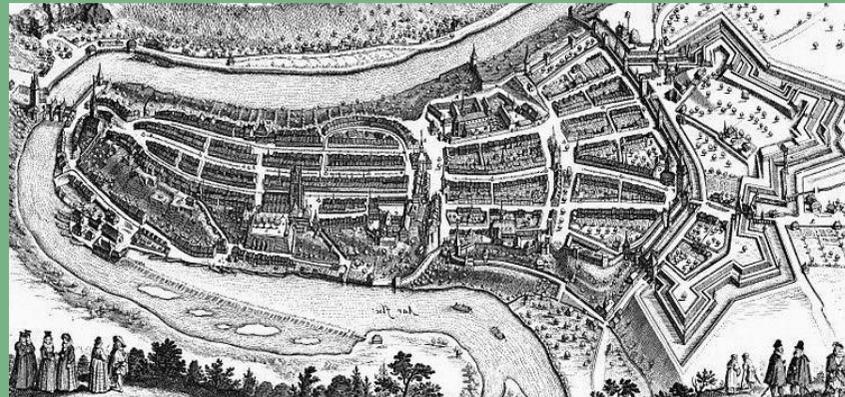

MAP ANALYSIS

The map that update through the year and month. My intention about this game is to breakdown the map analysis because I am very interesting in landmark of each nation.

Mondstadt

Bern

If you compare the maps of Mondstadt and Bern You will find that they are very similar in shape! Both the shape of the city and the large rivers.

The buildings are inspired by the German “Miltenberg”, with a hint of the Middle Ages enveloping them. It’s a half-timbered, half-cemented house. Popular with red thatched roof looks warm.

Most of the cathedrals in Monstadt are inspired by the German “Regensburg” and have a history dating back to World War II! It is a towering tower that can be seen from a distance.

They also have Liyue that get inspired by China, and Inazuma get inspired by Japanese.

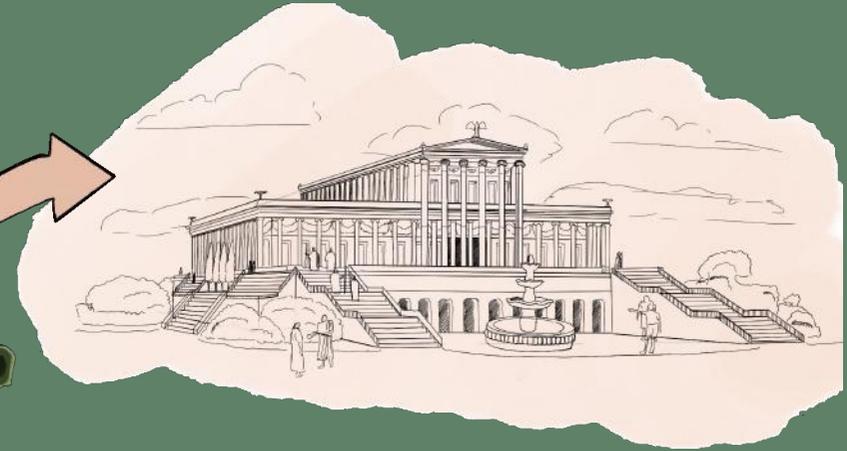

Greek

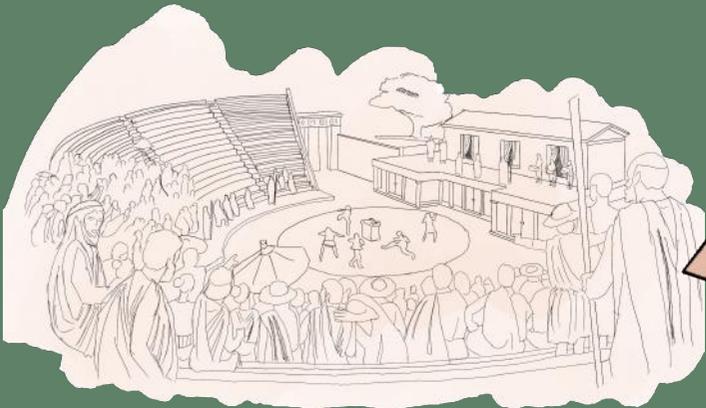

By being inspired by games and cultures As a result, my project aims to have a culture that is not yet present in this game transforms it into a way that people can play and experience the **Greek culture**. The reason for choosing it is because I personally like **Greek architecture** and also like the greatness of various gods. This led me to try to combine parts of this culture with the modern era and create a new simulated space in this game.

H.P. LOVECRAFT

Tragedy hit HP Lovecraft's life again when his grandfather died. It was during this time that Susan began to attack her son.

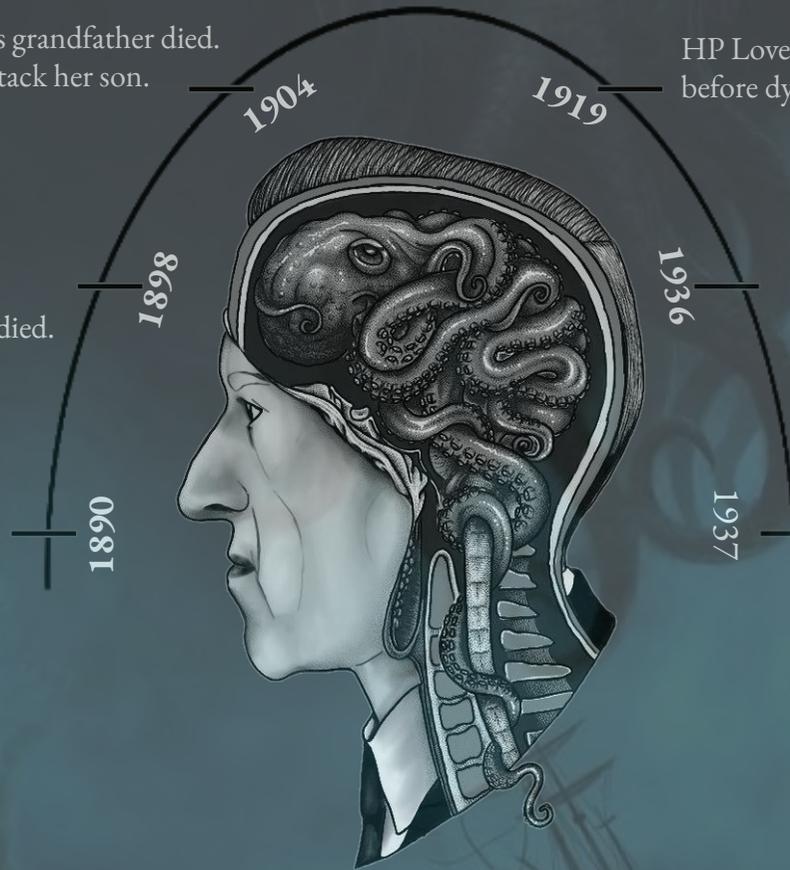

HP Lovecraft's mother became more serious and was hospitalized, before dying in the hospital and of course causing a massive trauma.

His father was a frequent commuting merchant before suffering a brain injury from syphilis and died.

H.P. Lovecraft discovered that he still had what he called 'grippe' and began to keep a journal. Before he received the bad news again when his best friend Robert died.

HP Lovecraft was born and lived in Providence, Rhodes Island.

H.P. Lovecraft passed away on March 15, at the age of 46.

MONSTER ANALYSIS

HP Lovecraft, probably because of the heartache Or fear of things he doesn't understand? H.P. Lovecraft begins to construct a plot that he's drawn from his dreams. (Which he has been doing this for a while) mixed with his own writing style to become 'The Call Of Cthulhu.

With such a huge body and a creature that had never been seen before, it looked terrifying. It also has wings that, whether on land or in the sky, are its territory and cannot escape it.

As we all know, he is afraid of division and loss. Throughout his life, there were always people who left before him. So he created various creatures out of his own fear.

As tentacle can mean of problem that always hold back him from someone and unable to run away from.

My Final work of this project is to create my own monster from my biggest fear. Unlike Lovecraft that pass through a lot of thing. So i decide to use mostly insect and also something that abnormal.

CHAINSAW MAN

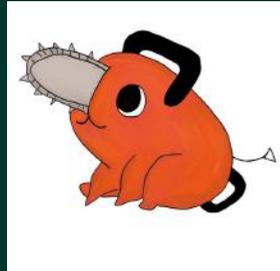

The world is one ravaged by Devils, otherworldly monsters who feed on human fear. Despite their antagonistic nature, humans can actually form alliances with these Devils and gain powers of their own. The protagonist, named Denji, works to clear his father's massive debt to the yakuza. Aiding him on this journey is Pochita, a Devil in disguise as a dog

CHARACTER

Denji is both brash and naive as a result of being unable to have a formal education and socialize due to living in severe poverty. His personality comes off as rude and harsh in an almost childish way.

Pochita was saved by Denji when in his time of need by feeding him his blood to recover from an injury, leading to them befriending one another Devil and Human alike

Makima and Denji shared an asymmetrical relationship: whereas Denji was greatly infatuated with Makima and willing to go to great lengths to serve her, Makima saw Denji as nothing more than a pet and tool, taking interest in him solely for the fact that the Chainsaw Devil Pochita resided in his heart

Aki and Denji initially began as distrustful teammates, as Aki strongly disliked Denji: he despise Denji for his Devil nature, and his bold, crass personality.

Power - their shared stupidity and apathy make the two quickly grow close, often playing games and arguing. Their relationship becomes comparable to that of siblings

Makima as "Hope"

Denji as "Seeker"

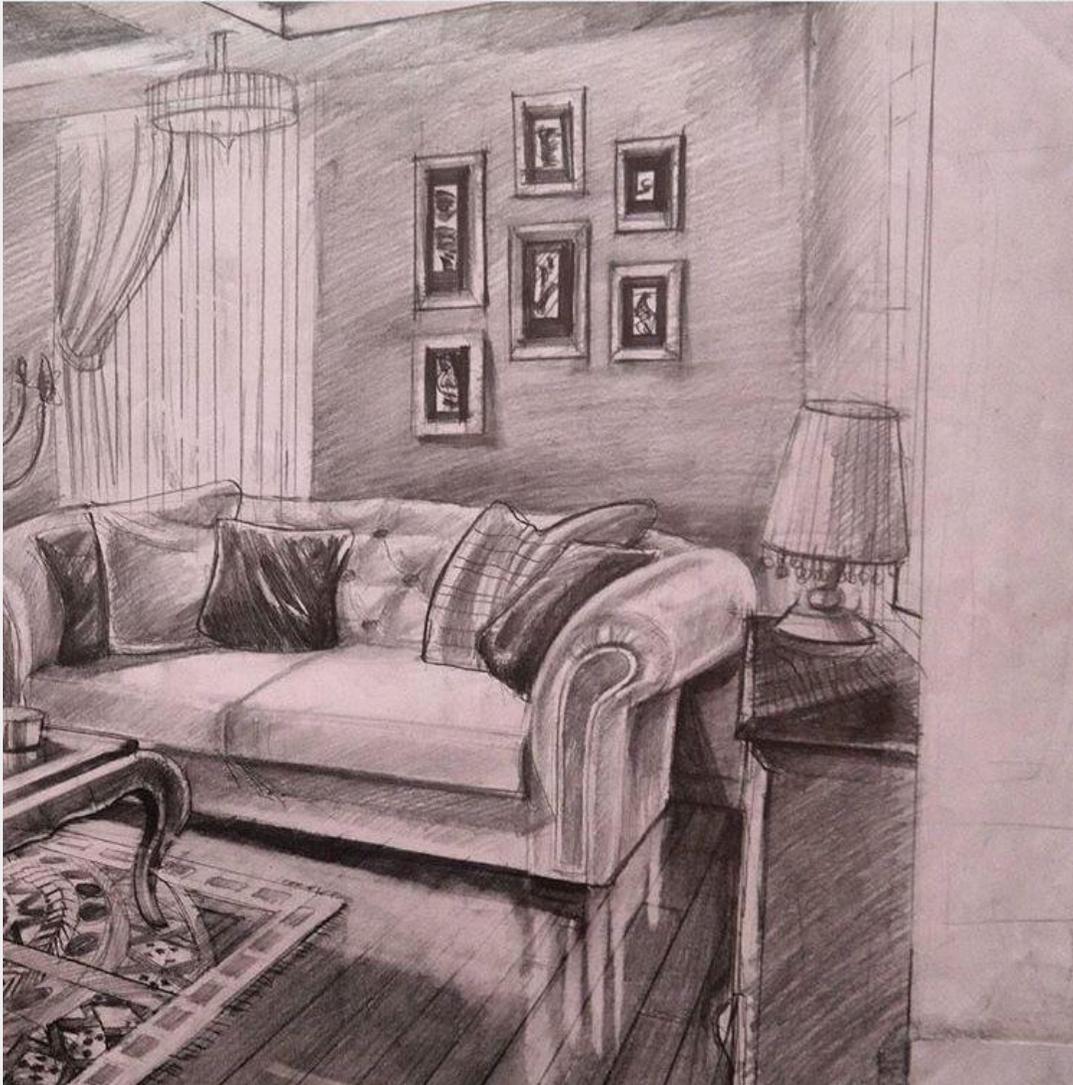

After the plot this lead me to the design. The story mainly talk about main character know that he is being deceived despite to have friends, family and a new life. But even so he leave everything behind for one girl to take him for granted.

This artwork may have different meaning depends on each person's thoughts.
